

Custom program 2020

GARNEAU®

custom program 2020

Create your own Garneau gear with our custom program. With absolutely NO MINIMUM, we put you in the driver's seat to let you unleash your creativity with the help of our talented graphic designers.

Table of contents

2	Introduction
8	Cycling
9	Jerseys
13	Bibs / Shorts
17	Skins
20	Jackets / Vests
24	Triathlon
25	Tops
28	Shorts
29	Skins
31	Junior
35	Accessories
38	Fit Guide
41	Chamois Guide

NO MINIMUMS.

Forget minimums, they no longer exist. You can order only one unit or we can price out your entire custom order based on the bottom line. For example, if you need 10 jerseys, 5 shorts and 10 jackets, your order is for a total of 25 units and you fit in the bracket 12 to 49. You can always add a few extra pieces to get to the next bracket and save more overall.

* Total unit count excludes accessories.

SHOP.

This is the easy part. Find the products that fit the type of riding you'll be doing. Don't worry about precise quantity yet. We can adjust all that along the way, but remember, the more you buy, the more you'll save.

Only need one kit? That's possible. We have no minimums, period.

Our knowledgeable staff is always available to help you select the best styles suited for you. Our live chat is also a good tool to quickly get the info you need.

CREATE.

Whether your idea is crystal clear or not, we'll help you dial it in. Have an idea in your head? We have graphic artists ready to bring those ideas to life. If you are an artist, you can also download our templates to create your own design. Once your artwork is in motion, we will walk you through the details including sizing, payment, shipping options, and even the ability to setup your own online store! Once we've dotted all our i's and crossed all our t's, your order is sent to production. Our average production schedule ranges from 3 to 5 weeks.

Not sure about sizing? We can ship you size runs of all the styles you are interested in so you can try everything before placing your final order.

RIDE.

This is the best part, and we want to come along for the ride! Post an image of your kit on your favorite social network and add **#garneacustom**. Keep us part of your journey. We always welcome product feedback and ride stories. We love what we do!

NEW KIT DAY

You don't have to be pro, heck you don't even have to race to feel the thrills of new kit day. We work with individuals as well as groups. We work with clubs as well as teams. We work with rides as well as races. Heck, we even work with breweries, Fortune 500 companies, and more.

Custom is for everyone.

junior

JUNIOR TOUR 2 JERSEY

9M20891

JrXS - JrXL

Fabric: Light Micro-Airdry®

- Full length hidden zip
- Front length: 18"/46 cm
- Easy to handle black zip puller for small hands
- 3 back pockets
- Elastic at hem
- Fully sublimated

JUNIOR

UPF/SPF
PROTECTION

JUNIOR TOUR BIB

9M58365 Hero chamois

JrXS - JrXL

Fabrics: Light® Power / Pro + LYCRA® fiber / Power Mesh

- Partly sublimated
- Lined at lower back
- Powerband
- Flatlock seams
- Adjustable and detachable mesh suspenders
- Inseam: 7"/18 cm

JUNIOR TOUR SHORTS

9M50543 Hero chamois

JrXS - JrXL

Fabrics: Light® Power / Pro + LYCRA® fiber / Power Mesh

- Partly sublimated
- Lined at lower back
- Powerband
- Flatlock seams
- Elastic waist with elasticized drawstring
- Inseam: 7"/18 cm

JUNIOR EQUIPE SS SKIN

9M58515 Hero chamois

JrXS - JrXL

Fabrics: Power + LYCRA® fiber / Pro + LYCRA® fiber / Power Mesh

- 13"/33 cm invisible zip
- Sublimated upper body, side panels and Powerband
- Lined at lower back
- Ergonomic fit
- 10 panels
- Biceps grippers
- Powerband
- Flatlock seams
- Inseam: 7"/18 cm

JUNIOR BLAST JACKET

9M30277

JrXS - JrXL

Fabrics: Microzone II / Power Mesh

- Full length zip with garage and inner flap
- Front length: 22"/56 cm
- Stretch trim at hem
- Reflective accents at back
- Power Mesh side panels
- Access to jersey pockets at back
- Overlock seams

JUNIOR BLAST VEST

9M28123

JrXS - JrXL

Fabrics: Microzone II / Power Mesh

- Full length zip with garage and inner flap
- Front length: 22"/56 cm
- Stretch trim at hem
- Reflective accents at back
- Power Mesh side panels
- Access to jersey pocket at back
- Overlock seams

JUNIOR TRI SKIN

9M58115 CD chamois

JrXS - JrXL

Fabrics: Endurexx / CB Triline

- 12"/30 cm invisible zip with inner flap
- Sublimated upper body, side panels and Powerband
- Comfort designed neck and armholes
- Offset shoulder seams
- Powerband
- Flatlock seams on leg panels
- 1 back pocket

TOP SHEET

- The top sheet contains carbon fibers and has high-tech bacteriostatic properties
- New breathable technical top sheet backing made with a mesh-like construction that opens and closes depending on the leg movement to draw moisture away from the body, leaving riders dry and fresh

CONSTRUCTION

- The innovative 5.1 Motion design combines 3D preshaped wings with skiving and vent perforation technologies
- Skiving technology is used to combine very dense and lightweight foams in order to optimize the ergonomic shape and lightness. Skiving provides more thickness where needed and thinness at the edges, making the pad unnoticeable when pedaling
- The deep slit at the back bridged by vented mesh allows for multidirectional motion and amazing comfort
- The mesh area at the front adapts to the body for increased comfort and moisture wicking
- Multi-thickness perforated high-density foam for better moisture evacuation and support
- Louis Garneau patented ergonomic shape
- Patents: U.S. #6,393,618 ; Can. #2,349,801
- Other international patents pending

TOP SHEET

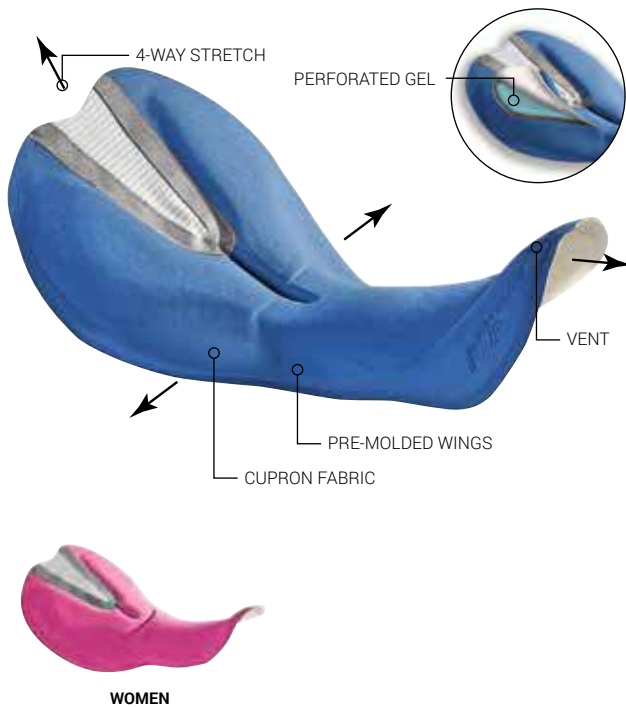

- Entirely made from recycled polyamide, spandex and eco-carbon fibers, this top sheet is certified according to the Global Recycle and SCS Recycled standards. The use of recycled fabric helps reduce CO₂ emissions by about 53% as well as cutting waste from raw material
- The top sheet contains carbon fibers that offer high-tech bacteriostatic properties. Our new top foams are 5 times more air permeable and 30% more breathable. These foams help reduce heat by letting air flow through freely

CONSTRUCTION

- The innovative 4.1 Motion design combines 3D preshaped wings and a deep slit at the back, bridged by vented mesh to allow for multidirectional motion and amazing comfort
- 4 additional mesh vents at the front for ventilation
- Multi-thickness perforated high-density foam for better moisture evacuation
- Progressive slope obtained by a molding technique merging 2 foams at a highest point of 10 mm gradually reducing to 1 mm on the edges, optimizing the ergonomic shape for improved comfort
- Louis Garneau patented ergonomic shape
- Patents: U.S. #6,393,618 ; Can. #2,349,801
- Other international patents pending

MOTIONairgel

TOP SHEET

- Made with CUPRON fabric: The copper content of CUPRON fabric helps reduce irritation to the skin, provides antimicrobial properties, can help promote wound healing and provides anti-allergen properties. Long-lasting effect throughout the life of the product

CONSTRUCTION

- Perforated gel inserts offer comfort and breathability
- Multi-thickness perforated high-density foam for better moisture evacuation
- Vents at the front help maintain breathability
- Central channel shaped to relieve pressure from the urethra (men only)
- A deep slit at the back is bridged by vented mesh to allow for multidirectional motion and amazing comfort
- Developed with B.E.M. (Beveled Edge Molding) high-density perforated memory foam. This technology eliminates drastic drops of heights from one area to the other, resulting in a smooth transition without pinching points to eliminate chafing
- Louis Garneau patented ergonomic shape
- Patents : U.S. #6,393,618 ; Can. #2,349,801
- International patent pending

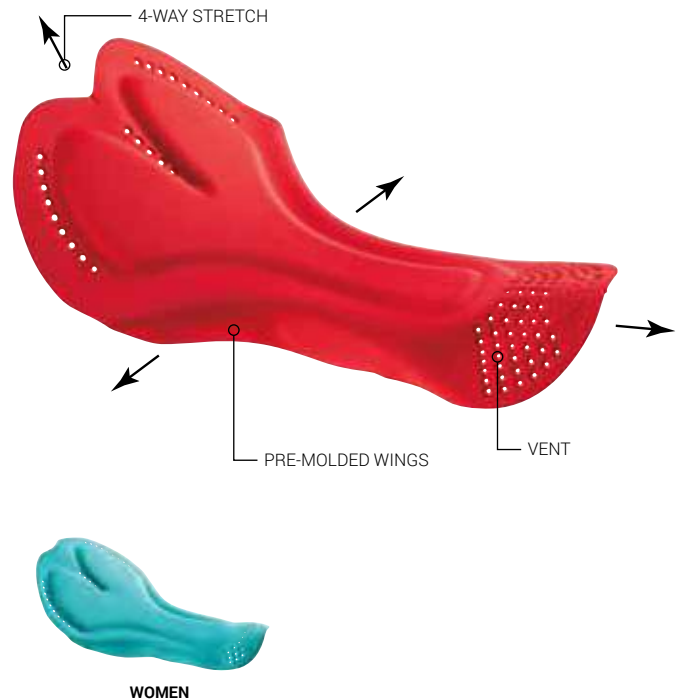

Beveled Edge Molding

High-density perforated memory foam and gel

AIRZONE2

NEW

TOP SHEET

- Fabric treated with an antibacterial solution to fight the effects of retained moisture, which can increase the growth of bacteria

CONSTRUCTION

- Developed with B.E.M. (Beveled Edge Molding) high-density perforated memory foam. This technology eliminates drastic drops of heights at the edge of the foam, resulting in a smooth transition without pinching points or chafing
- Perforated vents maintain breathability without sacrificing comfort
- The foam and fabric used for this chamois maximize moisture wicking
- Chamois conforms ergonomically to the human body
- Pre-molded wings with a progressive slope shape for a superior, ergonomic fit
- 4-way stretch maximizes fit and motion
- Seamless construction
- Thinner perineal area relieves pressure (men only)
- Patents: U.S. #6,393,618 ; Can. #2,349,801

Beveled Edge Molding

High-density perforated memory foam

TRIAIR2 NEW

TOP SHEET

- The top sheet contains carbon fibers and offers high-tech bacteriostatic properties
- The new perforated top foam is breathable to reduce heat by letting air flow through freely

CONSTRUCTION

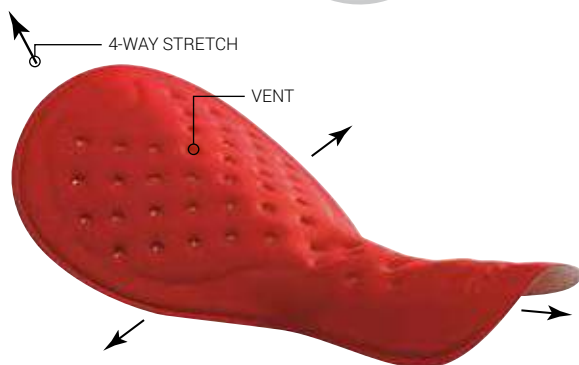

- Developed with a combination of strategically-located high density and lightweight foams
- The use of skiving technology ensures a smooth transition, making the pad unnoticeable when pedaling and running
- 4-way stretch to fit the different ranges of motion required in triathlon
- Lightweight, quick-drying and breathable chamois
- Provides great support during your bike ride while maintaining comfort during your run and swim
- Patents : U.S. #6,393,618 ; Can. #2,349,801
